The **ATRA® Key** is an innovation by Presto GEOSYSTEMS® for faster and more cost-efficient construction of GEOWEB® projects.

Developed for installation speed, productivity and overall economics, the versatile ATRA® Key connects GEOWEB® sections with one quick and easy turn. The ATRA® Key is suitable for connecting GEOWEB® sections through material slots both end-to-end and side-to-side, providing a more secure load-transfer connection than with other devices.

The ATRA® Key is a safe, secure and strong device that offers contractors significant benefits over traditional stapling methods.

---

**FIVE KEYS to COST SAVINGS**

1. **EQUIPMENT SAVINGS**
   - Eliminates equipment needs and costs: Does not require air compressors, generators, pneumatic staplers or staples.
   - Eliminates equipment and production down-time caused by jammed staplers or equipment problems.

2. **ACCESSIBILITY AND PORTABILITY**
   - Easier to maneuver on steep slopes than with stapling operations.
   - Transports easily to remote or difficult-to-access locations; requires no electricity as with air compressors.

3. **LABOR SAVINGS**
   - Saves significant labor costs; requires only one worker to connect GEOWEB® sections vs. two workers required for standard stapling operations.

4. **SAFETY**
   - Eliminates potential injury to workers caused by use of pneumatic staplers.

5. **LONGEVITY**
   - Lasts longer than staples: Inert polymeric material provides long life.
• Considerable time/cost savings when driving large quantities of anchors or in hard soil or difficult environments.

• The ATRA® Driver with a custom ATRA® Gad significantly speeds the driving of ATRA® anchors, improving productivity and reducing installation costs.

• Considerable time/cost savings when driving large quantities of anchors or in hard soil or difficult environments.

• Provides additional anchorage with or without tendons to resist sliding and/or uplift forces.

ATRA® Driver

• Drive ATRA® Stake Clips over rebar to create an ATRA® anchor.

• Easier to drive than J-hook stakes, improving installation productivity.

ATRA® Anchor

ATRA® Stake Clip

ATRA® Tendon Clip

• High-performing device to transfer loads from the cell wall to the tendon.

• Clips securely lock into GEOWEB® cells, allowing them to be efficiently preassembled before expanding GEOWEB® sections on slopes.

ATRA® Anchors

ATRA® Driver

ATRA® Tendon Clip
